AI Tooling
Claude AI · OpenAI · MCP workflows

EDUCATION

B.Sc. in EEE
American International University Bangladesh
2011 – 2015

LANGUAGES

Bengali	Native
English	Professional

PROFESSIONAL PROFILE

Software Engineer with 6+ years building e-commerce and SaaS products for clients in the UK, US and Europe, the last five mostly on Shopify. I build custom themes and storefronts, and in 2026 I published two Shopify apps on the App Store. On the frontend side I work in React, Next.js and Vite, with a focus on speed and clean, responsive UI. I take ownership of what I ship and work best close to the team.

SELECTED WORK

AutoAgent: Social Media Posts
Shopify App · Sep 2026 · 5.0 rating
Writes and posts daily product promos to Facebook, Instagram and Pinterest, plus a weekly SEO blog article. Merchants approve every post.
apps.shopify.com/autoagent

OrderSpec: Custom Order Check
Shopify App · Oct 2026
Catches blank, over-length or off-list personalised orders and flags typos; outputs run sheets and packing slips.
apps.shopify.com/orderspec

StretchSense Gaming
Shopify custom storefront · 2025
Animated launch landing for VR motion-capture gloves: gesture-driven hero visuals, pre-order flow, fully responsive.
shop.stretchsense.com

VelaCrew
Next.js SaaS · 2024
Set up CI/CD with GitHub Actions and Vercel for the Next.js platform, cutting deploy time by ~50%.

WORK EXPERIENCE

Software Engineer
Apr 2022 – Present
Tuliptech Ltd — Leicester, UK (Onsite, Dhaka)

- Built the front end and Merlin ERP integration for the Gafbros Magento 2 B2B trade portal (team of three, soft-launched Oct 2026). Price refresh cut from 9.3 hours to about 2 minutes, with zero mismatches across 29,652 prices.
- Led the WooCommerce-to-Shopify migration for Stateside Distribution, raising conversion rate by 20%; added Shopify Flow automation to block fraudulent orders and improved LCP.
- Built Catered by Clink on WooCommerce with a fully custom checkout; integrated 8+ third-party APIs (payments, shipping, CRM, Klaviyo), cutting onboarding time by ~30%.
- Built custom Shopify themes and storefronts for UK and US brands, including the animated StretchSense Gaming launch site.
- Delivered React and Vite front ends for BlueFrog (JW Player) and the Tuliptech site; built CareApps and Empathika on Framer CMS.

Lead Code Mentor
Oct 2018 – Apr 2022
CodersTrust Bangladesh Ltd

- Taught and mentored 500+ students in web design, WordPress and Shopify; wrote course materials, ran assessments and gave 1-to-1 coaching.

Freelance Web Developer
Sep 2017 – 2021
Upwork & Fiverr

- Completed 50+ WordPress and Shopify projects for clients in the USA, UK, Australia and Europe, with a 95%+ Job Success Score.
- Took multiple WordPress sites from PageSpeed ~40 to 90+; clients regularly came back for follow-up work.

PROFESSIONAL DEVELOPMENT

- Web Design & Freelancing Certification — CodersTrust Bangladesh Ltd (2017)
- Magento 2 Theming — M.Academy (in progress, alongside the live Gafbros project)
- AI-assisted development with Claude AI and OpenAI; MCP-based workflow automation
